CONCRETING CARRIES INTO NEXT YEAR

SUMMARY: NINETY-ONE PER CENT OF CBI CONCRETE HAS BEEN PLACED. ONE EAST END BLOCK (91-A) IS LESS THAN SEVEN FEET FROM COMPLETION. A SECOND (89-A) MAY TIE WITH IT IN HEIGHT SATURDAY. AND YET LOWEST BLOCKS IN THE SPILLWAY DIVERSION AREA ARE 170 FEET BELOW THE ULTIMATE PARAPET. CONCRETE PLACING IN CONNECTION WITH DETAIL WORK WILL OCCUPY MOST OF NEXT YEAR. RESUMPTION OF CONCRETING IN THE SPILLWAY DIVERSION AREA WILL SEND NEARLY 50 PER CENT OF REMAINING CONCRETE FOR THE YEAR INTO THE SPILLWAY AREA.

PROBABLY THE BIGGEST VISUAL CHANGE IN THE FUTURE WILL OCCUR WITHIN THE NEXT 2½ MONTHS WHEN MOST OF REMAINING MASS CONCRETE WILL GO INTO THE DAM. DURING THIS PERIOD IT IS PLANNED FOR THE EAST END TO REACH ITS HEIGHT IN A GRADUAL EXTENSION TOWARD THE SPILLWAY. NEAR-SPILLWAY BLOCKS ARE 45 TO 55 FEET SHORT OF COMPLETION. INTERMEDIATE BLOCKS HAVE FROM 20 TO 40 FEET TO GO.

THE FIRST LAW OF NATURE IS SELF-PRESERVATION

THE EXTREMITIES OF THE WEST SIDE ARE TO APPROACH A LEVEL WITH THE REST OF THE WEST SIDE. THE WESTERNMOST TIP, WHICH JOINS WITH THE PUMPING PLANT, HAS A

LOW ELEVATION OF 1210 -- 100 FEET FROM COMPLETION OR FROM 40 TO 50 FEET BEHIND MOST WEST SIDE BLOCKS. THE WEST SIDE WILL FINISH BEHIND THE EAST.

IN THE SPILLWAY MASS CONCRETING WILL CEASE AT 1226 -- 75 FEET SHORT OF THE DAM PARAPET. EAST SPILLWAY BLOCKS ARE APPROACHING 1226. MOST BLOCKS IN THE DIVERSION SECTION ARE ABOUT 60 FEET SHORT.

VISUALLY THEN, COMPLETION OF MASS CONCRETING WOULD BRING THE DAM AND PUMPING PLANT WING DAM UP TO THE SAME LEVEL AS THE HIGHWAY AT THE WEST ABUTMENT, WITH THE SINGLE EXCEPTION OF THE SPILLWAY, WHICH WOULD BE 75 FEET LOWER.

ALTHOUGH SPILLWAY MASS CONCRETE CEASES AT 1226, IT IS MISLEADING TO ASSUME THAT THE SPILLWAY DOES NOT GO HIGHER. ON COMPLETION OF DRUM GATE CHAMBERS IT WILL APPEAR AS ONE SOLID FRONT UP TO ELEVATION 1260.

AND FROM HERE DRUM GATES IN OPERATION WOULD ADD 28 FEET TO THIS ELEVATION. IN OTHER WORDS, ELEVATION 1226 MARKS ONLY A NEW PHASE OF SPILLWAY CONCRETING AND DOES NOT MEAN (CONTINUED ON PAGE 3)

CONCRETE

(CONTINUED FROM PAGE 1)

AN END TO SPILLWAY CONCRETE.

WHILE ALD BUT A FEW THOUSAND YARDS OF MASS CONCRETE MAY BE PLACED DURING THE PRESENT YEAR, THIS SPECIAL CONCRETE ABOVE 1226 MAY CARRY THROUGH MOST OF NEXT YEAR BECAUSE IT IS NECESSARILY A SLOWER JOB.

AS PART OF THE SPILLWAY WORK, THE HUNDREDS OF BRISTLES OF $\frac{1}{4}$ -INCH REINFORCEMENT STEEL ARE ONLY AN INTRODUCTION. THEY WILL EXTEND FOR THE FULL WIDTH OF THE 1650-FOOT SPILLWAY. STARTING FROM ABOUT ELEVATION 1200 OR 1205 FOR SPECIAL SPILLWAY CONCRETING, THEY WILL CONTINUE ON UP TO 1260 AS PART OF THE SPILLWAY DRUM GATE CHAMBERS. IN THE PIERS THEY WILL GO TO 1296.5 TO BECOME A PART OF THE BRIDGE STRUCTURE.

ANOTHER SUGGESTION OF THE CARE NEEDED IN SPILLWAY CONSTRUCTION LIES IN THE CURVATURE OF THE UPSTREAM-DOWNSTREAM SIDES OF CHAMBERS AND PIERS. PLANS SHOW THAT THESE WILL HAVE VARIABLE RADIUS AND PARABOLIC CURVES. CONSEQUENTLY PANEL FORMS WHICH ARE NOW BEING DESIGNED CAN BE USED FOR DIFFERENT SPILLWAY BLOCKS BUT ONLY AT ONE PARTICULAR ELEVATION. SOME CHAMBER PANELS WILL HAVE TO BE OVER SEVEN FEET HIGH FOR A 5-FOOT LIFT OF CONCRETE.

OF COURSE THERE ARE NUMEROUS OTHER REASONS WHY SPILLWAY CONSTRUCTION ABOVE 1226 WILL BE COMPARATIVELY SLOW. THE HEAVILY REINFORCED PIERS WILL BE TOWERS CONTAINING NUMEROUS ROOMS WITH DETAIL INSTALLATIONS. SPECIFICATIONS STATE THAT THESE PIERS ARE TO BE BUILT UP IN LAYERS NOT OVER 12 INCHES THICK AND CONTAINING

NO LARGE AGGREGATE.

IN ADDITION TO NUMEROUS SPECIAL FINISHING AND CONCRETING JOBS NECESSARY FOR THE FULL LENGTH OF THE PARAPET OF THE DAM AND WING DAM ARE OTHER JOBS. FOR INSTANCE, FIVE TWIST ADJUSTMENT SLOTS LEFT IN THE DAM ARE TO BE CONCRETED AFTER SAND AND GRAVEL, TILE, TIMBER, SEALING STRIPS AND THE LIKE ARE REMOVED. THESE SLOTS HAD BEEN LEFT TO TAKE CARE OF ANY SLIGHT TWIST IN THE DAM AS THE RESULT OF RESERVOIR PRESSURES. ALSO CONCRETE WILL HAVE TO BE PLACED AROUND POWER HOUSE INSTALLATIONS AND IN HUNDREDS OF OTHER ROOMS, SHAFTS AND THE LIKE. THE BRIDGE AND THE TOP OF THE DAM WILL BE INTERESTING DETAIL JOBS.

IF PLANNED PROGRAMS ARE MET, IT WILL BE SUCH JOBS AS THESE WHICH WILL OCCUPY MOST OF NEXT YEAR FOR CBI HERE AS FAR AS THE PLACING OF CONCRETE IS CONCERNED.

##

NOTE: WHERE REFERENCES ARE MADE TO HEIGHT COMPLETION FOR THE PARAPET, THE ROUND FIGURE ELEVATION OF 1310 HAS GENERALLY BEEN USED INSTEAD OF 1311.8.

WE HAVE APPRECIATED THE COOPERATION OF DAVE OPPENHEIM AND WARD WILKES OF THE CBI ENGINEERING DEPARTMENT.

THEY SAY YOU'VE GOT TO GO EAST IF YOU WANT TO SEE THE BIG THEATRES. RUMOR HAS IT THAT A SHOWHOUSE IN NEW YORK IS SO BIG THAT WHEN A MAN SITTING IN THE LAST ROW THROWS AN EGG, IT HATCHES OUT BEFORE IT HITS THE STAGE.

YEP, SAFETY PAYS

WHY WAS THE WATCHMAN FIRED?

THE PROPRIETOR OF A JEWELRY STORE WAS ARRANGING TO LEAVE ON HIS USUAL WEEK-END TRIP. WHEN HE HAD LOCKED THE SAFES HE GAVE THE KEYS TO MR. BROWN, THE WATCHMAN, SAYING: "PLEASE GIVE THESE TO THE MANAGER WHEN HE COMES IN THE MORNING; I'M CATCHING THE 8:30 TRAIN TONIGHT."

BROWN TOOK THE KEYS, BUT EXCLAIMED, "I BEG YOUR PARDON, SIR, BUT I DO HOPE YOU WON'T TAKE THAT TRAIN, BUT GO ON YOUR USUAL TRAIN AT 9:10."

THE PROPRIETOR LOOK SURPRISED, AND ASKED, "WHY, WHAT ON EARTH'S THE MATTER WITH THE FIRST TRAIN?"

"WELL, SIR, THE FACT IS - I HAD A DREAM

LAST NIGHT THAT THERE WAS A BAD SMASH-UP ON THE 8:30."

ON HIS WAY TO THE STATION, THE PROPRIETOR, HALF-ASHAMED FOR HIS SUPERSTITION, DECIDED TO WAIT FOR THE SECOND TRAIN. STRANGE TO SAY, THE FIRST TRAIN WAS WRECKED AND A NUMBER OF PASSENGERS WERE KILLED.

UPON THE PROPRIETOR'S RETURN TO THE STORE MONDAY MORNING, HE SENT FOR BROWN AND SAID TO HIM: "YOU SAVED MY LIFE BY YOUR WARNING; HERE IS A REWARD FOR YOU, BUT I GIVE YOU A WEEK'S NOTICE."

WHY WAS BROWN DISCHARGED?

UP TO 2538 TONS OF WATER WILL FLOW THROUGH PENSTOCK PIPES, COMMISSIONER JOHN C. PAGE OF THE BUREAU OF RECLAMATION REPORTED TO HAROLD L. ICKES, SECRETARY OF THE INTERIOR.

THE PIPE WAS FORMED FROM NEARLY SIX ACRES OF HEAVY STEEL PLATES, ACCORDING TO THE SAME SOURCE.

BILL CLARK WAS REELECTED BUSINESS AGENT FOR THE HOD CARRIERS UNION AT THE REGULAR ELECTION OF OFFICERS LAST WEEK.

A DAILY AVERAGE OF 6400 YARDS OF CONCRETE WAS MAINTAINED FOR THE MONTH OF MAY. THE TOTAL ON JUNE 1 WAS 5,358,258 YARDS FOR CBI.

WATER THROUGH THE DAM HAS BEEN FLOWING THROUGH 54 TUBES.

DON'T RUN OVER THE KIDDIES

MOTORISTS, PROTECT THE CHILDREN BY DRIVING WITH CAUTION.

WE ASK YOUR COOPERATION IN THIS PARTICULARLY BECAUSE IT IS NEEDED MORE THAN EVER NOW THAT SCHOOL IS OUT.

CHILDREN SHOULD NOT PLAY IN THE STREETS -- BUT THEY DO. AFOOT OR ON BICYCLES, THEY MAY SUDDENLY DART INTO THE PATH OF AN AUTOMOBILE DRIVING TOO FAST.

SPEED LIMITS IN MASON CITY ARE 25 MILES AN HOUR. THESE LIMITS MUST BE OBSERVED. THE JUDGMENT OF AN AUTOIST IN ALL COMMUNITIES SHOULD BE SUFFICIENT TO KNOW THAT CONDITIONS OFTEN MAKE 25 MILES MUCH TOO FAST. IF IN DOUBT, GO SLOW. THIS IS ESPECIALLY IMPERATIVE AT INTERSECTIONS, IN TURNING CORNERS OR IN BACKING UP.

REMEMBER THAT EVEN THOUGH A CHILD MAY BE AT FAULT A MOTORIST CAN NEVER EXPLAIN AWAY THE FACT THAT IF HE HIMSELF HAD BEEN MORE CAREFUL THE ACCIDENT COULD NOT HAVE OCCURRED.

SWELTERING WEATHER MAY BE ON ITS WAY. THE TUESDAY TEMPERATURE REACHED 100 DEGREES, ACCORDING TO THE USBR.

RIVER PEAK?

IF THE COLUMBIA RIVER DOES NOT TURN ABOUT, ITS FLOOD PEAK FOR THIS YEAR WILL HAVE BEEN REACHED JUNE 5 AT THE RELATIVELY LOW ELEVATION OF 965.3, USBR FIGURES SHOW. ELEVATIONS ARE RECORDED AT THE HIGHWAY BRIDGE. RIVER DISCHARGE RECORDS FOR THAT DAY WERE 265,000 SECOND-Feet, APPROXIMATELY 2 MILLION GALLONS PER SECOND.

LAST YEAR'S PEAK WAS REACHED JUNE 1 AT ELEVATION 967.23 WITH A FLOW OF 290,000 SECOND-Feet.

BY YESTERDAY MORNING THE RIVER HAD DROPPED TO ELEVATION 963.83, THE BUREAU OF RECLAMATION REPORTED.

SOME TIME EARLY TUESDAY MORNING NINE SLOTS CARRYING WATER OVER THE DAM WERE AUTOMATICALLY REDUCED TO THREE AND EMPLOYEES TURNED TO DRYING UP THE SIX BLOCKS FOR CONCRETING.

GRANDPA'S DRIVE WAS FREE FROM CARE IT TOOK HIM TIME - BUT HE GOT THERE. HIS GRANDSON NOW STEPS ON THE GAS AND RISKS HIS LIFE A CAR TO PASS.

BIDS WILL BE OPENED TOMORROW BY THE BUREAU OF RECLAMATION AT DENVER FOR SUPPLYING THE WEST POWER HOUSE WITH SWITCHES AND LIGHTNING ARRESTERS. THIS WILL INCLUDE THREE 230,000-VOLT AND ONE 115,000-VOLT SWITCHES AND TWO 230,000-VOLT AND TWO 115,000-VOLT ARRESTERS.
